We do not plan to stop for dinner.

The Picasso exhibit is on loan from the Picasso museum in Paris, composed of those pieces of art Picasso himself set aside to be his legacy. The group of 180 works, spans the range and years of his painting life. They record the infatuations with each new love, tender portraits of his children, and all the stylistic changes of his explorations. The Virginia Museum is the only East Coast stop for this tour, making this a rare treat to experience.
